Capt. Crawford- FSFC Online-Class Approval Class

This month personnel watched a webinar on how to navigate Manatee Fire Online. This was live with Capt. Sousa from WMFR hosting three of them. These were to help our personnel navigate the EMT modules on Manatee Fire Online. All personnel were given opportunity to ask questions and interact during the presentation. Next, each shift participated in a live practical drill during the night at SRQ. In July, the remaining personnel will participate in the second set of drills. Also, June was the Firefighter & EMS Health and Safety Week. This is an annual event with a different study reference each year, this year was mental health. Crews are given reference material links for review during this week. Next, several crews participated in the annual hazmat drill at Tropicana. This year a rescue scenario was incorporated, to offer the Light Technical Rescue Teams the ability to participate and try out their skills. Lastly, all crews participated in a facility tour to the newly opened L.A. Fitness workout club.

July's Topics: Safe Place Awareness Class
Officer's Choice
Officer's Training
EMT Module- Water Rescue Essentials
Exposure Control Blood-borne Pathogens
