- F/F Foss- VFIS Emerg Driver Training- T-T-T**
- Lt. Perry- VFIS Emerg Driver Training- T-T-T**

**This month the Training Division met with a school board representative and learned that the schools will not be utilizing the online learning platform that SMFR uses for their EMT recertification modules, as they are moving to a single sign-on cloud based system as required by DOE. They will however continue to support the system for the Fire Departments. A new server hard drive is on order, which should resolve the speed issues. This month the Training Director and FTO's meet to improve coordination with training. In addition, the Training Building Committee met to discuss the current use and future of the training building. Crews trained on some hands on training and pump operator training this month, as well as a review of policies. Work continued on the EMT modules, but the system was running slow due to the defective hard drive. Next month personnel will be recertified on CPR and AED through the American Heart Assoc. utilizing our in-house certified instructors and over-seen by our certified facilitator.**

**May's Training Topics:**

- Officer's Choice**
- CPR Recertification**
- EMT Modules**
- Driver's Training**
- Group Fitness**

**State Certifications:**

**Lt. D'Agostino- Hazardous Materials Technician
