F/F Wojcik- Healthcare Provider

During the month of February all crews were cycled through a Swift Assist Victim Extraction (S.A.V.E.) 4 hour part 1 training taught by the Training Director and the shift's Field Training Officer. The part 2 trainings will take place in March. This is training for the crews on post active shooter response. This is a county wide, multi-discipline, multi-agency initiative for Fire, Law, and EMS. The FTO's continue to train their personnel hands on specialized training at the old Manatee Technical Institute school building. This building will be torn down some time in the future, but offers great training while available. Lastly, the Training Division handled the logistics for the annual physicals for employees 45 years of age and older.

March's Training Topics: Firefighting Foams- Target
Self Contained Breathing Apparatus- Target
Denver Drill
Fire Officer I & II Company Meeting
Driver Operator Engine/Pumper (scenarios)
