Fire / EMS Report:

This Month the training division was busy preparing for the quarterly promotions that happen in July 2018. Five of our personnel are going to be going thru the process of written examination, practical examination, and the oral review boards. This month we continued to training with Ladder 339 working on skills of elevated streams and company operations with other engine companies. This month the company officers also were given the task to start practical JPR testing with their assigned firefighters. There will be a total of six months where firefighters will be

tested on the skills of ladders, hose lines, forcible entry, etc. These testing will show the company officers where personnel either excel or need additional training as it relates to job performance criteria. This month our apparatus operators were also given their annual written hydraulics examination. Finally this month crews completed three research papers on PTSD, Cardiac Health, and cancer. These reports were completed during the annual F/F Stand-Down week.
